

WICKED COOL FOR KIDS

SUMMER 2027

CELEBRATING 20 YEARS!

WWW.WICKEDCOOLFORKIDS.COM

Full or Half Day Programs

Morning only or full day options available. Enjoy an afternoon of fun free-choice STEAM activities that will include building challenges, arts and craft STEAM projects, and design opportunities to spark creativity and innovation with take home projects by  **KiwiCo**

Rocket Science

AM Only Option: Join us for New England's ultimate Rocket Science experience, and launch into the world of space exploration! Our Rocket Science morning session features the new and easy-to-build customizable Cosmic Ray Rocket. Keep a Captain's Log and venture to the rocky planets and the gas giants in our solar system. Build a model satellite, make glittering galaxy slime and build a mini telescope. Feel the adrenaline at the high-flying solid fuel rocket launch at the week's end! (weather permitting)>

Full Day Option: Afternoon explorers will also enjoy free-choice educational space activities including crafting space models, creative spacey art projects, and solar science experiments for an out of this world experience. Finish off the week by building and launching Kiwi Water Rocket Blasters! GRADES K-5

Wicked Cool Vet School

AM Only Option: Are you dreaming of becoming a superstar veterinarian? Grab your lab coat, animal adventurers, and prepare to meet your (stuffed) animal patient. Learn to recognize vital signs and emergencies in animals. Delve into dog digestion and investigate animal intestines from our favorite vertebrates: birds, mammals, reptiles, amphibians and fish. Cap off the week by using your knowledge of vertebrates to create your own new animal!

Full Day Option: Full-day kids will get their own Veterinarian Starter Kit Kiwi Crate to explore animal x-rays to find bone fractures and dig deeper into animal anatomy. Next, kids can engage in free-choice STEAM activities related to all things from the wide world of animals - including animal arts and crafts as well as engineering activities. GRADES K-5

LEGO Robotics & Engineering Adventures

AM Only Option: Bring scientific concepts to life by building and programming your own free-roaming LEGO robots! Using specialized LEGO software, you will design and control untethered moving projects like Milo the Science Rover. During the morning session, dive into interactive, guided activities: first, construct an earthquake-shake table to test the durability of house designs, and then engineer a specialized bot to sort and recycle objects along with other fun and challenging WeDo 2.0 activities.

Full Day Option: In the afternoon, continue to explore robotics and use your creativity to learn how circuits work. Experiment with motors and electricity then design your own ultimate Draw Bot Kiwi Crate drawing robot to take home. Choose your own projects in the afternoon with free choice STEAM fun. GRADES 1-5

Minecraft Mania

AM Only Option: Using the updated Minecraft Education platform, Minecraft Mania skillfully blends virtual and real-world learning experiences for maximum learning and fun. In the morning, use a Minecraft avatar to dive into the wonders of engineering, physics, and biology to build our own Wicked Cool Minecraft Town. Follow up with fun, companion hands-on STEAM lessons and build a compass, a light up Creeper, towers and a brick style plant!

Full Day Option: In the afternoon, the Mania continues as we build a fun Kiwi Air Hockey game to learn about engineering and physics. Select your own fun free choice hands-on educational activities and science based Minecraft worlds for a fun filled week. GRADES 1-5

**This class requires access to Wi-Fi. Our tablets support only dual band 2.4GHz and 5 GHz but not Wi-Fi 6E/Wi-Fi 7. Please check with your IT department prior to booking! We will use a secure VPN network to run the game privately in our classroom.*

Full Day Programs

Wicked Cool Science

Wicked Cool for Kids presents a week of Wicked Cool Science along with some fun engineering and art projects! Start Monday exploring physical science by storming fortresses with custom-built catapults, then dig deep on Tuesday to unearth ancient treasures and prehistoric fossils. On Wednesday, get messy exploring the icky, sticky side of biology by making concoctions like model mucus! Day 4 is filled with giant design challenges - like building newspaper forts and epic pool noodle marble runs. Finally, cap off the adventure on Friday by diving into the wild animal kingdom to uncover the secrets of nature's fiercest predators! GRADES K-5

"I just wanted you to know that my incoming first grader has declared the Wicked Cool Program "the best camp I've ever been to." He arrives bounding into the classroom and leaves with lots of cool projects and huge smile, declaring each day this week that he had "a really great time today." Thanks for bringing such a cool camp to our community!"

Jenn, Mom

Discovery and Design

Gear up for the ultimate hands-on STEAM adventure! Our "Discovery and Design" program is an action-packed week packed with exciting, epic challenges every single day. On Monday, plunge into the "Deep Blue Sea" to discover wild underwater worlds and meet glow-in-the-dark ocean creatures. On Tuesday, step into the lab for "Sparkle Science" to mix up fizzy bath bombs, dazzling lotion, and custom sparkling creations. On Wednesday, it's "Slime Time"—concoct custom, colorful polymers, outrageous textures, and awesome scents! On Thursday, become an inventor in the "Design Studio" as you build and engineer cool projects that integrate electronics. Finally, on Friday, become a master "Potion Maker," brewing bubbling, color-shifting mixtures to uncover the amazing science behind the magic! GRADES K-5

"My son attended Minecraft Mania last summer. He has been asking to attend Minecraft again this summer since it ended last year. The Wicked Cool staff were wonderful & he looked forward to attending every day."

Heidi, Mom

New!

Choose Your Own Adventure STEAM Programs

Families can enjoy maximum flexibility with these two "choose your own adventure" programs, allowing enrollment for anywhere from 1 to 5 days a week. These programs can also be offered as a standard 5-day session (see above). Pre-registration is required. Full day only. Pricing for individual days is available on request.

Option 1: Wicked Cool Science

Monday – *Castles and Catapults*

Storm the fortress! Build your own medieval castle and launch projectiles with hand-made catapults while mastering the secrets of physics.

Tuesday – *Rocks and Fossils*

Become a prehistoric detective. Dig deep into the earth to find ancient treasures and uncover the secrets of creatures that lived millions of years ago.

Wednesday – *Wicked Gross Science*

Get ready to get messy. Explore the icky, sticky, and totally cool side of biology with experiments and projects that are as gross as they are fun.

Thursday – *Engineering Fun*

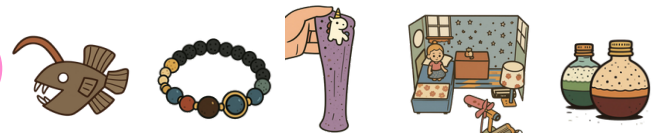

Think it, build it, move it! Team up to solve epic challenges like giant marble runs and newspaper tube forts!

Friday – *Paws, Jaws & Claws*

Go wild! Step into the animal kingdom to discover how nature's fiercest predators survive using amazing adaptations and super-cool features.

GRADES K-5

Option 2: Discovery & Design

Monday – *Deep Blue Sea*

Dive into the deep. Explore the mysterious world under the waves and meet the incredible, glowing creatures that call the ocean home.

Tuesday – *Sparkle Science*

Make it shine and shimmer, scientist! Mix up colorful chemicals to make scented bath bombs, glittering lotion and custom science jewelry.

Wednesday – *Slime Time*

It's slime o'clock! Jump into the lab to create custom, gooey polymers and experiment with scents, colors and add-ins for custom slime fun.

Thursday – *Design Studio*

Use your imagination and engineering skills to design, style, and build your own awesome projects from scratch.

Friday – *Potion Makers*

Brew up some magic. Mix mysterious potions that change color and fizz while discovering the real science behind your enchanting creations.

Booking Details

- Our traditional full or half day programs are one week long.
- We offer AM only half days - we do not take extra kids in the afternoon.
- Only our "Choose your own Adventure" programs can be customized for a shorter week.
- Minimum 8, maximum is usually 20 unless we have an agreement for more staff.
- All administrative fees must be added onto the WCFK fee.
- We staff at a 1:10 ratio, all staff undergo comprehensive background checks.

Daily Schedule

AM

Get In the Groove: unplugged games and crafts promoting social interaction - 30 minutes

STEAM lesson #1 - 60 minutes

Break: snack, games and outside play - 30 minutes.

STEAM lesson #2 - 60 minutes

PM

Dismissal for half day students

Lunch, games and outside play - 60 minutes

PM STEAM Activity #1: Free Choice - 60 minutes.

Break: snack, games and outside play - 30 minutes

PM STEAM Activity #2: Free Choice - 60 minutes.

Free time: Finish projects, clean up - 30 minutes

Dismissal

Cheers to 20 Years of STEAM!
